ID	Question	Answer
1	Annex No. 1 Technical Specification of the Tender Documentation in point 2.8 states that the device must be capable of PoE or 24VDC power supply. Will the client allow the installation of an additional power supply or toroidal transformer to power the camera in the cabinets?	Explained. At the request of the participant, the contracting authority answers that the provision of power supply (eg in the form of a power supply, toroidal transformer) is the responsibility of the contracting authority when the condition of the 24 VDC supply voltage is met.

In connection with changes in the tender documentation, including the previous ones, and the delayed publication of certain explanations of the tender documentation, the contracting authority extends the deadline for submission of tenders until 25 May 2020 until 12:00 (noon).
